SHUBHAM SUDHIR RAJIWADE

rajiwade.s@northeastern.edu | 857-351-9031 | LinkedIn | GitHub | Portfolio | Boston, MA | Open to Relocation/Remote

SUMMARY

Salesforce Developer with 4+ years of experience, including nearly 3 years at Deloitte USI delivering full life-cycle banking, financial-services, and healthcare implementations, specializing in Health Cloud and financial services. Strong in Apex, LWC, Flows, and integrations. Most recently earned Agentblazer Innovator 2026 with hands-on Agentforce work.

WORK EXPERIENCE

Analyst (Co-op) | ***Mass General Brigham***, Boston, MA *Jan 2026 - July 2026*

- Contributed to **migrating** a legacy database into **Salesforce Health Cloud** (field mapping, SQL cleaning, **Data Loader** loads, post-load validation), moving the team's records onto **one Salesforce platform**
- Designed, built, and delivered a **Salesforce Health Cloud patient-data tool** used by **30+ clinicians**, with a **React** front end and **FastAPI REST API** over Health Cloud data staged in SQL Server, unifying scattered records into one view
- Analyzed a decade of clinical data with **SQL and Python (Pandas)** and built **10+ Tableau dashboards** that surfaced trends and **data-quality** issues for the annual program evaluation

Analyst - Salesforce Developer | ***Deloitte USI***, Mumbai, India *Oct 2021 - Aug 2024*

- Delivered **3 full life-cycle implementations**, from requirements gathering through **go-live and hypercare**, across banking, financial-services, and healthcare clients, cutting manual effort by **~30%** for the client
- Built and maintained **Flow automation**, **validation rules**, and approval processes, and contributed to a **custom LWC component**, **data model design**, and **role-based data security**, so users got automated processes and only the data they need
- Contributed to a banking client's Salesforce integrations with legacy systems, using **REST/SOAP APIs**, **MuleSoft**, **Platform Events**, and **nightly batch runs** that processed **500K+ transactions a month**
- Developed **bulkified**, governor-limit-compliant **Apex classes, triggers**, and **batch jobs**, plus **LWC**, Aura, and Visualforce components, across 3+ engagements including **FSC and OmniStudio**, keeping bulk loads reliable
- Turned requirements into **user stories and fit-gap decisions** with business analysts and stakeholders, and **migrated legacy data** with **Data Loader** and Salesforce APIs so requirements became buildable work
- Resolved data and integration issues during go-live by fixing **root causes** at the source; wrote **unit tests** with **high code coverage** and supported **release management** and **CI/CD**
- **Mentored 6+ new joinees**, supported code reviews, and helped define **coding standards**, speeding up their ramp-up

Assistant System Engineer | ***Tata Consultancy Services***, Mumbai, India *Aug 2020 - Oct 2021*

- **Administered Sales Cloud and Service Cloud** (users, profiles, permission sets, roles, queues, field-level security) and built **Flows**, custom objects, and fields, delivering **20+ CRM enhancements** that increased client satisfaction by **12%**
- Analyzed CRM data and optimized **SOQL queries, reports, and dashboards** (**+30% performance, -25% manual reporting effort**), and performed **data imports, loads, and migrations**
- Developed **Apex helper classes and test classes** and provided **production support** to Sales and Service Cloud end users, resolving issues through **root-cause analysis**

EDUCATION

Northeastern University, Boston, MA
Master of Science in Engineering Management | GPA: 3.7/4.0 *Expected Dec 2026*

University of Mumbai, Mumbai, India
Bachelor of Engineering in Information Technology | GPA: 3.7/4.0 *Oct 2020*

SKILLS

Salesforce Administration & Operations: User accounts, queues, teams, hierarchies, RBAC, platform maintenance, troubleshooting
Service Cloud & Declarative Configuration: Case management, routing rules, Omni-Channel, chat, knowledge base, Flow Builder (Screen, Record-Triggered, Scheduled, Auto-launched), Process Builder, Validation Rules, Approval Processes, record types, list views, Lightning App Builder, page layouts, custom objects, fields
Clouds: Sales Cloud, Service Cloud, Health Cloud, Experience Cloud, Financial Services Cloud
AI & Agentforce (hands-on): Agentforce Builder (topics, actions, reasoning instructions), Prompt Builder templates, prompt engineering, RAG grounding via retrievers, invocable Apex actions
Data Management & Quality: Database maintenance, diagnostic testing, duplicate cleansing, orphaned-record remediation, validation, reconciliation, Salesforce Data Loader, Workbench, SOQL/SOSL, SQL
Testing & Release Management: QA testing, UAT, regression testing, release readiness, deployment validation, training materials & documentation, Salesforce DX (SFDX), Salesforce CLI, Copado CI/CD, GitHub, Git, sandbox management
Development & Integration: Apex (classes, triggers, Batch, Schedulable, test classes), fflib-style Selector/Service layers, LWC, Aura, Visualforce, SOQL/SOSL, REST/SOAP APIs, MuleSoft, Platform Events, Bulk API, OAuth 2.0, JSON, JavaScript, HTML/CSS, Power BI, Tableau Desktop, Agile/Scrum, Jira

CERTIFICATIONS & SUPERBADGES

Certifications (5): Platform Developer I, Administrator, Sales Cloud Consultant, Platform App Builder, JavaScript Developer I.
Superbadges (9): Apex, LWC, FSC, Process Automation, Security, Reports & Dashboards, Business Admin, Prompt Builder Templates, Agentforce Service Agents
